First aid after inhalation  Remove person to fresh air. If not breathing, administer CPR or artificial respiration. Get immediate medical attention.
First aid after skin contact  If skin reddening or irritation develops, seek medical attention
First aid after eye contact  Immediately flush eyes with plenty of water for at least 15 minutes. If irritation persists, get medical attention.
First aid after ingestion  If the material is swallowed, get immediate medical attention or advice. DO NOT induce vomiting unless directed to do so by medical personnel.

4.2 Most important symptoms and effects, both acute and delayed

| Symptoms/injuries after inhalation | May cause respiratory irritation |
| Symptoms/injuries after skin contact | May cause skin irritation |
| Symptoms/injuries after eye contact | Causes serious eye damage |

7.3 Specific end use(s)
No additional information available

**Section 8: Exposure controls/ personal protection**

8.1 Control parameters
No additional information available

8.2 Exposure controls

Appropriate engineering controls

: Local exhaust and general ventilation must be adequate to meet exposure standards

Hand Protection

: None required under normal product handling conditions

Eye Protection

: safety glasses

Skin and body protection

: Wear suitable working clothes

Respiratory protection

: If airborne concentrations are above the applicable exposure limits, use NIOSH approved respiratory protection
