## SAFETY DATA SHEET

### SECTION 1. IDENTIFICATION

Product identifier used on the label

: **Sunny Sol® 100**

Other means of identification : 1202001

Recommended use of the chemical and restrictions on use

: Disinfection of Drinking Water, Sewage & Wastewater Effluent Treatment,  
Swimming Pool Water Disinfection.

Restrictions on use None known.

Chemical family

: Alkali metal hypochlorites

Name, address, and telephone number  
of the supplier:

**JCI Jones Chemicals Inc.**

1765 Ringling Boulevard

Sarasota, FL, USA

34236

Supplier's Telephone # : 1-800-477-1078

**24 Hr. Emergency Tel #** : CHEMTREC (USA): 1-800-424-9300

CHEMTREC (CANADA): 1-800-567-7455

Name, address, and telephone number of  
the manufacturer:

Refer to supplier

### SECTION 2. HAZARDS IDENTIFICATION

Classification of the chemical

This material is classified as hazardous under U.S. OSHA regulations (29CFR 1910.1200) and Canadian WHMIS regulations (Hazardous Products Regulations).

Hazard classification:

Corrosive to metals - Category 1

Skin Corrosion/Irritation - Category 1

Serious eye damage/eye irritation - Category 1

Label elements

Hazard pictogram(s)

Signal Word

Danger

Hazard statement(s)

May be corrosive to metals.

Causes severe skin burns and eye damage.

Sunny Sol® 100

SDS Preparation Date (mm/dd/yyyy): 12/10/2025

Page 2 of 11

## SAFETY DATA SHEET

### Precautionary statement(s)

Do not breathe mist.  
Wear protective gloves, clothing and eye, face protection.  
Wash hands and face thoroughly after handling.  
Keep only in original packaging.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.  
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.  
Wash contaminated clothing before reuse.  
IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTRE or doctor.  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Absorb spillage to prevent material-damage.  
Store in corrosion resistant container with a resistant inner liner.  
Store locked up.

Dispose of contents or container in accordance with local, regional, national, international regulations.

### Other hazards

Contact with acids liberates toxic chlorine gas.

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Solution

| Chemical name       | Common name and synonyms                                       | CAS #     | Concentration (% by weight) |
|---------------------|----------------------------------------------------------------|-----------|-----------------------------|
| Sodium Hydroxide    | Caustic soda<br>Lye<br>Soda Lye                                | 1310-73-2 | 0.1 - 2.0                   |
| Sodium hypochlorite | Hypochlorous acid, sodium salt<br>Sodium oxychloride<br>Bleach | 7681-52-9 | 9.2 - 11.5                  |

The exact concentrations of the above listed chemicals are being withheld as a trade secret.

### SECTION 4. FIRST-AID MEASURES

#### Description of first aid measures

- Ingestion* : IF SWALLOWED: Call a POISON CENTRE or doctor if you feel unwell. Immediately call a POISON CENTER or doctor.
- Inhalation* : IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER or doctor.
- Skin contact* : IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. Immediately call a POISON CENTER or doctor.
- Eye contact* : Immediately call a POISON CENTER or doctor. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

#### Most important symptoms and effects, both acute and delayed

- : Ingestion may cause severe burns to the mucous membranes of the digestive tract. Symptoms may include abdominal pain, vomiting, burns, perforations and bleeding. Causes serious eye damage. Symptoms may include severe pain, blurred vision, redness and corrosive damage. Chemical burns, corneal damage, and possibly blindness can result from direct contact. Causes skin burns. Symptoms may include redness, blistering, pain and swelling. Direct skin contact may cause corrosive skin burns, deep ulcerations and possibly permanent scarring. May cause irritation of the nose, throat, mucous membranes, and respiratory tract.

Sunny Sol® 100

SDS Preparation Date (mm/dd/yyyy): 12/10/2025

Page 3 of 11

## SAFETY DATA SHEET

### Indication of any immediate medical attention and special treatment needed

- : Immediate medical attention is required. Treat symptomatically. Causes chemical burns.

## SECTION 5. FIRE-FIGHTING MEASURES

### Extinguishing media

#### *Suitable extinguishing media*

- : Water fog, alcohol foam, dry chemical or carbon dioxide.

#### *Unsuitable extinguishing media*

- : Do not use a solid water stream as it may scatter and spread fire.

### Special hazards arising from the substance or mixture / Conditions of flammability

- : Burning may produce irritating, toxic and obnoxious fumes. Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure. Contact with metals may release small amounts of flammable hydrogen gas.

### Flammability classification (OSHA 29 CFR 1910.106)

- : Not flammable.

### Hazardous combustion products

- : May include and are not limited to: Sodium oxides. Chlorate

### Special protective equipment and precautions for firefighters

#### *Protective equipment for fire-fighters*

- : Do not enter without wearing specialized protective equipment suitable for the situation. Firefighter's normal protective clothing (Bunker Gear) will not provide adequate protection. A full-body encapsulating chemical protective suit with positive pressure self-contained breathing apparatus (NIOSH approved or equivalent) may be necessary. Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

#### *Special fire-fighting procedures*

- : Do not breathe mists, vapours or sprays. Move containers from fire area if safe to do so. Cool closed containers exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water courses. Dike for water control.

## SECTION 6. ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

- : Keep people away from and upwind of spill/leak. Restrict access to area until completion of clean-up. Do not touch or walk through spilled material. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment including self-contained breathing apparatus. Refer to protective measures listed in sections 7 and 8.

**Environmental precautions** : Do not allow material to contaminate ground water system. If necessary, dike well ahead of the spill to prevent runoff into drains, sewers, or any natural waterway or drinking supply.

### Methods and material for containment and cleaning up

- : Ventilate the area. Remove all sources of ignition. Prevent further leakage or spillage if safe to do so. Contain and absorb spilled liquid with non-combustible, inert absorbent material (e.g. sand). Place in clean, dry and labeled containers. Refer to Section 13 for disposal of contaminated material. Contact the proper local authorities.

### Special spill response procedures

- : If a spill/release in excess of the EPA reportable quantity is made into the environment, immediately notify the National Response Center in the United States (phone: 1-800-424-8802).

Sunny Sol® 100

SDS Preparation Date (mm/dd/yyyy): 12/10/2025

Page 4 of 11

## SAFETY DATA SHEET

### SECTION 7. HANDLING AND STORAGE

#### Precautions for safe handling

- : Wear protective gloves, clothing and eye, face protection. Use only in well-ventilated areas. Keep away from extreme heat and flame. Do not breathe mists, vapours or sprays. Avoid contact with skin, eyes and clothing. Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Keep only in original container. Keep away from incompatibles. Keep containers closed when not in use. Empty containers retain residue (liquid and/or vapour) and can be dangerous.

- Conditions for safe storage** : Store in corrosion resistant container with a resistant inner liner. Store locked up. Store away from incompatible materials. Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. No smoking. Inspect periodically for damage or leaks. Have appropriate fire extinguishers and spill clean-up equipment in or near storage area.

- Incompatible materials** : Incompatible with strong acids and oxidizing agents. Tin Aluminium Phosphorus compounds Organic materials

### SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

| <u>Exposure Limits:</u> |                               |                                 |                     |                |
|-------------------------|-------------------------------|---------------------------------|---------------------|----------------|
| <u>Chemical Name</u>    | <u>ACGIH TLV</u>              |                                 | <u>OSHA PEL</u>     |                |
|                         | <u>TWA</u>                    | <u>STEL</u>                     | <u>PEL</u>          | <u>STEL</u>    |
| Sodium Hydroxide        | 2 mg/m <sup>3</sup> (Ceiling) | Not available                   | 2 mg/m <sup>3</sup> | Not available. |
| Sodium hypochlorite     | Not available                 | 2 mg/m <sup>3</sup> (AIHA WEEL) | Not available.      | Not available. |

#### Exposure controls

##### Ventilation and engineering measures

- : Use only in well-ventilated areas. Use corrosion-resistant ventilation. Apply technical measures to comply with the occupational exposure limits. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. In case of insufficient ventilation wear suitable respiratory equipment.

- Respiratory protection** : If airborne concentrations are above the permissible exposure limit or are not known, use NIOSH-approved respirators. Respirators should be selected based on the form and concentration of contaminants in air, and in accordance with OSHA (29 CFR 1910.134) or CSA Z94.4-02. Advice should be sought from respiratory protection specialists.

- Skin protection** : Wear protective gloves/clothing. Impervious gloves must be worn when using this product. The suitability for a specific workplace should be discussed with the producers of the protective gloves. Wear impervious clothing to prevent skin contact. Wear chemically protective gloves (impervious), boots, aprons, and gauntlets to prevent prolonged or repeated skin contact.

- Eye / face protection** : Wear eye and face protection. Chemical splash goggles must be worn when handling this material. A full face shield may also be necessary.

- Other protective equipment** : Ensure that eyewash stations and safety showers are close to the workstation location. Other equipment may be required depending on workplace standards.

##### General hygiene considerations

Sunny Sol® 100

SDS Preparation Date (mm/dd/yyyy): 12/10/2025

Page 5 of 11

## SAFETY DATA SHEET

: Do not breathe mists, vapours or sprays. Avoid contact with skin, eyes and clothing. Do not eat, drink or smoke when using this product. Wash hands thoroughly after using this product, and before eating, drinking or smoking. Remove and wash contaminated clothing before re-use. Handle in accordance with good industrial hygiene and safety practice.

### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

**Physical State** : Liquid.  
**Colour** : Not available.  
**Odour** : Pungent.  
**Odour threshold** : 0.9 mg/m<sup>3</sup>  
**pH** : 12 - 14 (25 °C/77 °F)  
**Melting Point/Freezing point** : -11 °F (-24 °C) (12.5% solution)  
**Initial boiling point and boiling range**  
: Not available.  
**Flash point** : Not available.  
**Flashpoint (Method)** : Not applicable.  
**Evaporation rate (BuAe = 1)** : Not applicable.  
**Flammability** : Not applicable.  
**Lower explosion or flammability limit (% by vol.)**  
: Not applicable.  
**Upper explosion or flammability limit (% by vol.)**  
: Not applicable.  
**Oxidizing properties** : None.  
**Explosive properties** : Not explosive  
**Vapour pressure** : 12 mm Hg (20°C/68°F)  
**Relative vapour density** : Not available.  
**Relative density / Specific gravity**  
: Not available.  
**Solubility in water** : Completely miscible with water.  
**Other solubility(ies)** : Not available.  
**Partition coefficient: n-octanol/water or Coefficient of water/oil distribution**  
: Not applicable.  
**Auto-ignition temperature** : Not applicable.  
**Decomposition temperature** : Not available.  
**Viscosity** : Not available.  
**Particle characteristics** : Not applicable.  
**Volatiles (% by weight)** : Not available.  
**Volatile organic Compounds (VOC's)**  
: Not available.  
**Absolute pressure of container**  
: Not applicable.  
**Flame projection length** : Not applicable.  
**Other physical/chemical comments**  
: No additional information.

### SECTION 10. STABILITY AND REACTIVITY

**Reactivity** : The product is stable and non-reactive under normal conditions of use, storage and transport.  
**Chemical stability** : Stable under normal conditions.

Sunny Sol® 100

SDS Preparation Date (mm/dd/yyyy): 12/10/2025

Page 6 of 11

## SAFETY DATA SHEET

### Possibility of hazardous reactions

- : Hazardous polymerization does not occur. No dangerous reaction known under conditions of normal use.

### Conditions to avoid

- : Avoid direct sunlight and extremely high or low temperatures. Do not use in areas without adequate ventilation. Reacts violently with strong acids. Avoid contact with incompatible materials. Corrosive to aluminum, tin, zinc, copper and most alloys in which they are present including brass and bronze. Corrosive to steels at elevated temperatures above 40°C (104°F). Do not mix with ammonia or other cleaners, as dangerous vapours may be created.

### Incompatible materials

- : Strong acids and oxidizing agents Phosphorus compounds Tin Zinc. Aluminum

### Hazardous decomposition products

- : May include and are not limited to: Sodium oxides. Chlorate

## SECTION 11. TOXICOLOGICAL INFORMATION

### Information on likely routes of exposure:

Routes of entry inhalation : YES

Routes of entry skin & eye : YES

Routes of entry Ingestion : YES

Routes of exposure skin absorption  
: YES

### Potential Health Effects:

#### Signs and symptoms of short-term (acute) exposure

##### *Sign and symptoms Inhalation*

- : Inhalation of mists or sprays may mildly irritate the upper respiratory tract and cause coughing or sneezing.

##### *Sign and symptoms ingestion*

- : Ingestion may cause severe burns to the mucous membranes of the digestive tract. Symptoms may include abdominal pain, vomiting, burns, perforations and bleeding.

##### *Sign and symptoms skin*

- : Causes skin burns. Symptoms may include redness, blistering, pain and swelling. Direct skin contact may cause corrosive skin burns, deep ulcerations and possibly permanent scarring.

##### *Sign and symptoms eyes*

- : Causes serious eye damage. Symptoms may include severe pain, blurred vision, redness and corrosive damage. Chemical burns, corneal damage, and possibly blindness can result from direct contact.

#### Potential Chronic Health Effects

- : Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis.

#### Mutagenicity

- : Not expected to be mutagenic in humans.

#### Carcinogenicity

- : No components are listed as carcinogens by ACGIH, IARC, OSHA or NTP.

#### Reproductive effects & Teratogenicity

- : Not expected to cause reproductive effects.

#### Sensitization to material

- : Not expected to be a skin or respiratory sensitizer.

**Specific target organ effects** : Target Organs: Eyes, skin, respiratory system and digestive system.

#### Medical conditions aggravated by overexposure

- : Pre-existing skin, eye and respiratory disorders.

#### Synergistic materials

- : No information available.

Sunny Sol® 100

SDS Preparation Date (mm/dd/yyyy): 12/10/2025

Page 7 of 11

## SAFETY DATA SHEET

### Toxicological data

: Due to sodium hydroxide's mechanism of action-primarily causing severe, localized corrosive tissue damage-a single LC50/LD50 value is insufficient to accurately characterize its full hazard profile. The severity of harm is highly dependent on the concentration and duration of contact, emphasizing its primary risk as a corrosive agent rather than a systemic toxicant.

Sodium hydroxide causes immediate and severe local damage to any tissue it contacts (skin, eyes, or the lining of the mouth, throat, and gastrointestinal tract if ingested). This damage is a chemical burn that can lead to permanent tissue degeneration and even death through mechanisms like perforation of the gastrointestinal tract, not by reaching a lethal concentration in the bloodstream.

| <u>Chemical name</u> | <u>LC<sub>50</sub>(4hr)</u> | <u>LD<sub>50</sub></u>    |                             |

### Other important toxicological hazards

: None reported by the manufacturer.

## SECTION 12. ECOLOGICAL INFORMATION

### Ecotoxicity

: Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

The product should not be allowed to enter drains or water courses, or be deposited where it can affect ground or surface waters. See the following tables for the substance's ecotoxicity data.

### Ecotoxicity data:

| <u>Ingredients</u>  | <u>CAS #</u> | <u>Toxicity to Fish</u>              |                      |                 |

### Mobility in soil

: There is no data available for this product.

### Other Adverse Environmental effects

: No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

## SECTION 13. DISPOSAL CONSIDERATIONS

### Handling for Disposal

: Handle in accordance with good industrial hygiene and safety practice. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Refer to protective measures listed in sections 7 and 8.

### Methods of Disposal

: Dispose in accordance with all applicable federal, state, provincial and local regulations.

### RCRA

: It is the responsibility of the waste generator to determine the proper waste identification and disposal method.

**Special precautions for user** : Appropriate advice on safety must accompany the package.

**Environmental hazards** : Marine pollutant

### SECTION 15 - REGULATORY INFORMATION

#### US Federal Information:

Components listed below are present on the following U.S. Federal chemical lists:

| <u>Ingredients</u>  | CAS #     | TSCA Inventory | CERCLA Reportable Quantity(RQ) (40 CFR 117.302): | SARA TITLE III: Sec. 302, Extremely Hazardous Substance, 40 CFR 355: | SARA TITLE III: Sec. 313, 40 CFR 372, Specific Toxic Chemical |                          |
|---------------------|-----------|----------------|--------------------------------------------------|----------------------------------------------------------------------|---------------------------------------------------------------|--------------------------|
|                     |           |                |                                                  |                                                                      | Toxic Chemical                                                | de Minimis Concentration |
| Sodium Hydroxide    | 1310-73-2 | Yes            | 1000 lb/ 454 kg                                  | Not applicable.                                                      | No                                                            | 1%                       |
| Sodium hypochlorite | 7681-52-9 | Yes            | 100 lb/ 45.4 kg                                  | None.                                                                | No                                                            | N/Ap                     |

SARA TITLE III: Sec. 311 and 312, SDS Requirements, 40 CFR 370 Hazard Classes: Corrosive to metals; Skin corrosion; Eye Damage

#### US State Right to Know Laws:

The following chemicals are specifically listed by individual States:

| <u>Ingredients</u>  | CAS #     | California Proposition 65 |                  | State "Right to Know" Lists |     |     |     |     |     |
|---------------------|-----------|---------------------------|------------------|-----------------------------|-----|-----|-----|-----|-----|
|                     |           | Listed                    | Type of Toxicity | CA                          | MA  | MN  | NJ  | PA  | RI  |
| Sodium Hydroxide    | 1310-73-2 | No                        | N/Ap             | Yes                         | Yes | Yes | Yes | Yes | Yes |
| Sodium hypochlorite | 7681-52-9 | No                        | N/Ap             | Yes                         | Yes | Yes | Yes | Yes | No  |

## SAFETY DATA SHEET

### Canadian Information:

Canadian Environmental Protection Act (CEPA) information: All ingredients listed appear on the Domestic Substances List (DSL).

### US Information:

USEPA Registration Number: 1744-20003

ANSI/NSF Standard 60 Certified Maximum Use Level: 113 mg/L

AWWA Standard: AWWA B300-18

USDA Authorized Uses: 3D, B1, D2, L1, Q4

### SECTION 16. OTHER INFORMATION

#### Legend

: ACGIH: American Conference of Governmental Industrial Hygienists  
AICS: Australian Inventory of Chemical Substances  
CAS: Chemical Abstract Services  
CERCLA: Comprehensive Environmental Response, Compensation, and Liability Act of 1980  
CSA: Canadian Standards Association  
DOT: Department of Transportation  
EC50: Effective Concentration 50%  
ENCS: Existing and New Chemical Substances  
EPA: Environmental Protection Agency  
IARC: International Agency for Research on Cancer  
IATA: International Air Transport Association  
IBC: Intermediate Bulk Container  
ICAO: International Civil Aviation Organisation  
IECSC: Inventory of Existing Chemical Substances  
IMDG: International Maritime Dangerous Goods  
IOC: Inventory of Chemicals  
KECI: Korean Existing Chemicals Inventory  
KECL: Korean Existing Chemicals List  
LC: Lethal Concentration  
LD: Lethal Dose  
N/Ap: Not Applicable  
N/Av: Not Available  
NOEC: No observable effect concentration  
NTP: National Toxicology Program  
OECD: Organisation for Economic Co-operation and Development  
OSHA: Occupational Safety and Health Administration  
PEL: Permissible exposure limit  
PICCS: Philippine Inventory of Chemicals and Chemical Substances  
SARA: Superfund Amendments and Reauthorization Act  
STEL: Short Term Exposure Limit  
TDG: Canadian Transportation of Dangerous Goods Act & Regulations  
TLV: Threshold Limit Values  
TSCA: Toxic Substance Control Act  
TWA: Time Weighted Average  
WHMIS: Workplace Hazardous Materials Identification System
